

Natural Gas Energy

Natural Gas Energy in 2010

1. Countries Contribution: How much each country contributed in 2010.

Natural Gas Production of Countries in 2010

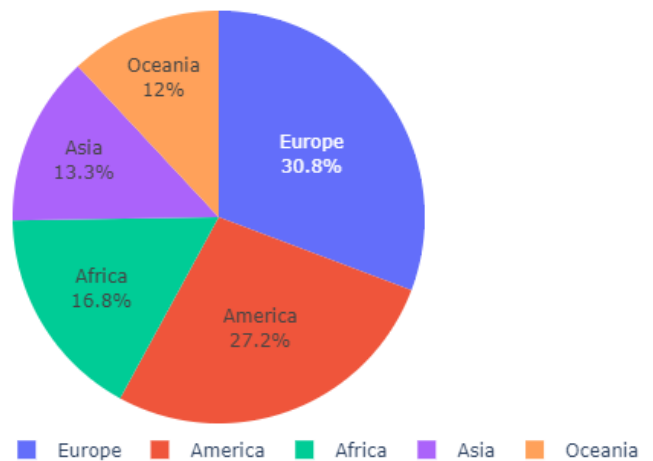

- The top 10 countries contributed about 79% of world share in Natural Gas energy production.
- 3 out of top 10 countries are from Asia.
- United States was the top producer of Natural Gas energy covering 60%.

2. Continents Contribution: How much each continent contributed in 2010.

Natural Gas Energy Contribution by Continents

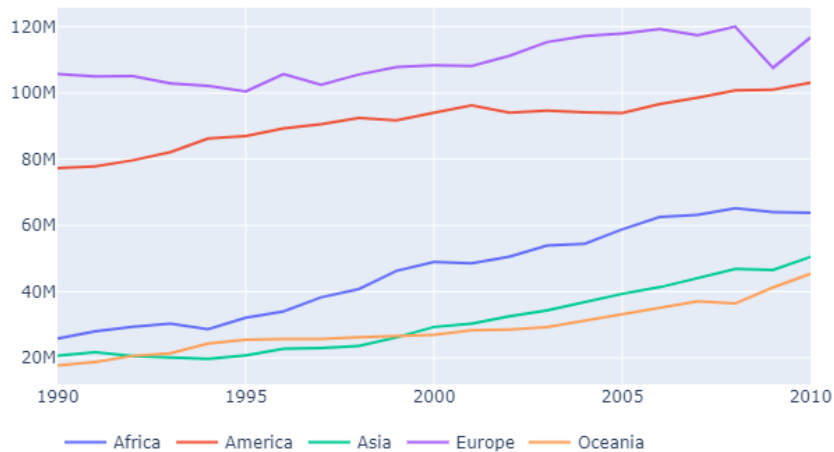

- 31% of Natural gas energy is generated in Europe.
- America generated 27% of Natural Gas.

Progress since 1990

1. Continents Contribution: Progress of each continent since 1990.

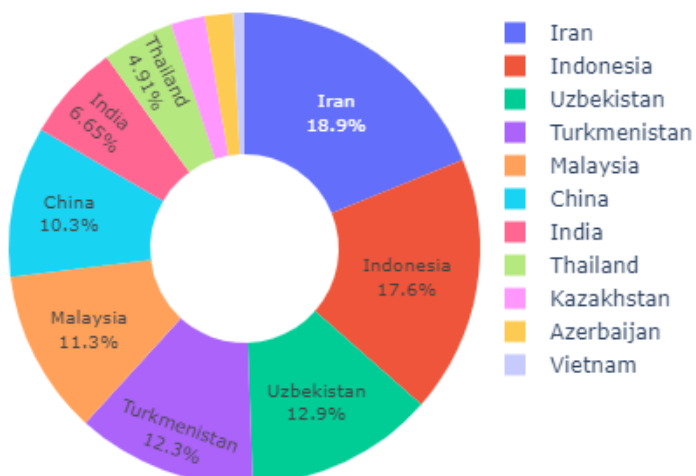

Natural Gas Energy Progress in Continents

- Europe has always been providing the highest amount of Natural Gas energy while America provided the 2nd highest.
- Asia overtook Oceania to become the 4th highest contributor in 2000.

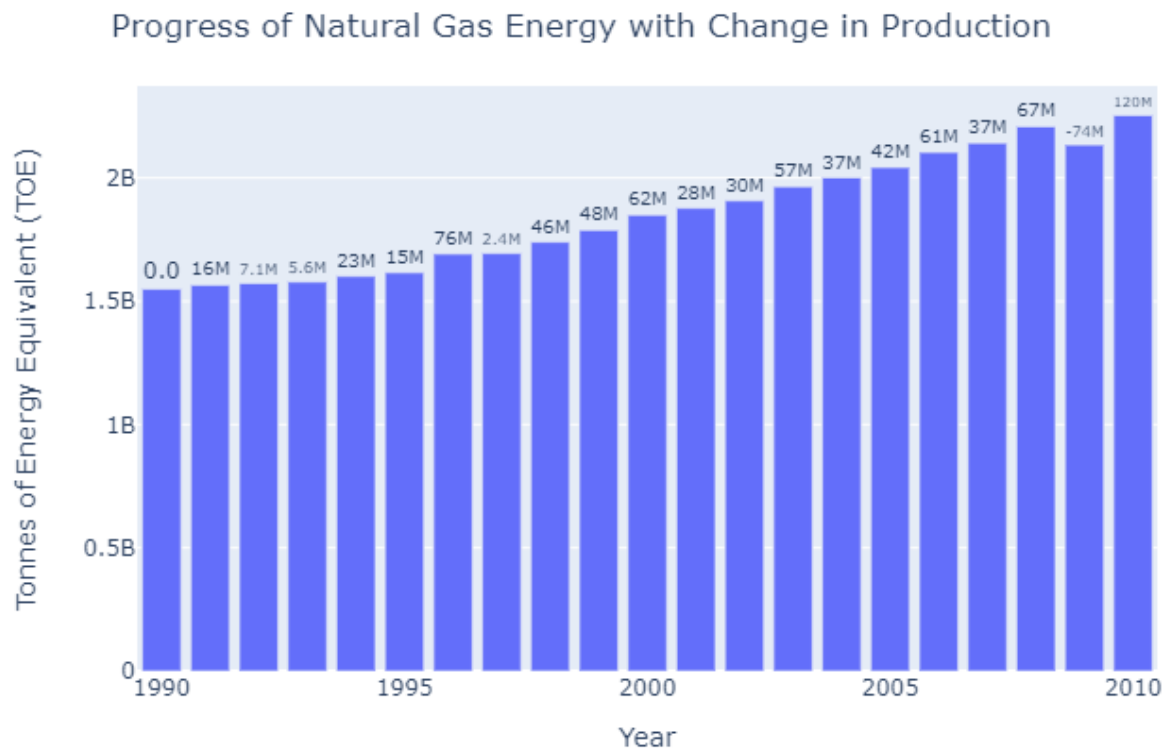

2. Asian Countries Contribution: Total contribution of countries in Asia since 1990.

Top Natural Gas Contributors in Asia

- Iran contributed 19% of Natural Gas in Asia energy since 1990.
- Top 6 countries contributed at least 10% since 1990.

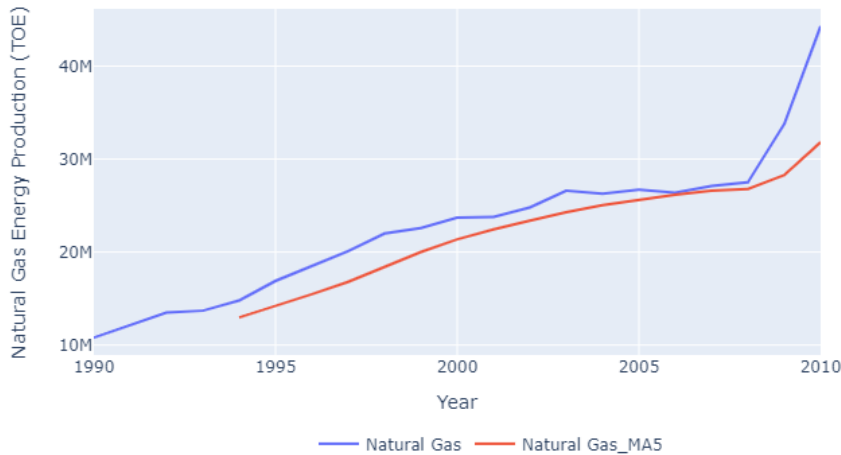

3. Overall Progress: Overall progress of Natural Gas energy in the world since 1990. The values on the bar shows the increase/decrease in the energy generation in the successive years.

- The Natural Gas energy production has increased by almost 1B in last 2 decades. From 1.5B in 1990 to 2.25B in 2010.
- Big increments have been made from 1998. The highest were during 2010 with a total of 120M increase.
- 2010 saw the highest increment of 120M.

India's Contribution: Progress of India in Natural Gas energy contribution since 1990.

India's Natural Gas Energy Production

- India's Natural Gas energy skyrocketed since 2009
- India's production almost increased by 4 times since 1990 from 10.8M in 1990 to 44.3M in 2010.
- India had 2% of world contribution in Natural Gas energy production in 2010.

Conclusion

- Europe is the leading continent in providing highest Natural Gas energy production.
- Iran is the leading contributor in Asia.
- India's growth has increased by 4 times since 1990.
- 79% of world contribution comes from top 10 countries.
